Dubai School Inspection Bureau identified:

Key strengths of the school:

- Good student and teacher relationships;
- Provision of quality teaching and human resources in the Kindergarten;
- Establishment of benchmarks in the science department, enabling the measurement of students' progress in science, across all stages.

Dubai Schools Inspection Bureau requires that the school take the following action to secure further improvement:

- Develop and implement a detailed school self-evaluation, a school improvement plan and related policies relevant to the range of students in the school;
- Create a curriculum that enables individuals to acquire the diverse skills needed for full participation in a dynamic and developing UAE and for a 21st century world;
- Diversify teaching methods and material resources, including information and communication technology, in order to meet varied learning needs, and support this by appropriate internal and external professional development;
- Define the roles and responsibilities of middle managers to:
 - Enhance the clarity of purpose of the school;
 - Share responsibilities and establish and disseminate good practice.
- Measure and track student outcomes against international benchmarks.

Next steps:

American International School has to prepare an action plan indicating how they will address the main findings of the report, and to share that plan with parents. The next inspection will report on the progress made by the school.

Inspectors will monitor the progress made by the school over the next three months.

About Inspections:

The purpose of inspection

The inspection was part of a strategy to evaluate educational standards and quality in all of the schools in Dubai. The inspection covered core aspects of the work of the school at all stages. Inspectors assessed the students' progress in key subjects, in particular, Arabic, Islamic Studies, English, mathematics and science (Grades 6 to 12). They evaluated important aspects of the work of the school including the quality of teaching and learning, the arrangements to protect and support students, including health and safety, leadership and management and the school's capacity for improvement.

The framework for inspection

All schools in Dubai were evaluated against seven central questions based on internationally accepted research into school effectiveness. Inspectors' evaluations concluded with a final judgement regarding the overall performance of the school. In the first cycle of inspections the judgement used for every school was:

Description of inspection levels

Level 4: Outstanding quality – exceptionally high quality of performance or practice.

Level 3: Good quality – the expected level for every school in Dubai.

Level 2: Acceptable – the minimum level of acceptability required for Dubai. All key aspects of performance and practice in every school should meet or exceed this level.

Level 1: Unsatisfactory – quality not yet at the level acceptable for schools in Dubai. Schools will be expected to take urgent measures to improve the quality of any aspect of their performance or practice that is judged at this level.

More information regarding the Inspection levels can be found in the online version of the Initial Quality Inspections Handbook at www.khda.gov.ae.

Inspectors assessed the following aspects of the work of the school:

- How good is the students' progress?
- How good is the students' personal and social development?
- How good is the teaching and learning?
- How well does the curriculum meet the educational needs of the students?
- How well does the school protect and support students?
- How good are the leadership and management of the school?
- How well does the school perform overall?

What happens next year?

A full report will be provided to parents in the second year. This will include information regarding inspectors' judgements on each of the quality indicators assessed.
